

PENREN /C this Week

March 1, 2004

Pentagon Athletic Center

The PAC will replace the existing 58-year-old Pentagon Athletic Facility with a larger facility that meets membership fitness and readiness needs. The facility will be located at basement level underneath and adjacent to the Pentagon's Mall Terrace.

(Left) One of 5 racquetball/squash courts at the new PAC. (Top) Much of the fitness equipment for the weight room has already been delivered.

More info on this project can be found at:
<http://renovation.pentagon.mil/pac/pac.htm>

Wedges 2-5 Renovation

Wedges 2 through 5 encompass 4.5 million square feet of Pentagon space to be renovated by 2010.

Workers excavating the floor in the A & B rings to install new plumbing lines.

More info on this project can be found at:
<http://renovation.pentagon.mil/wedge2-5/projects-W2-5.htm>

Roads, Grounds & Security

Two Roads, Grounds and Security Projects are currently underway, the Remote Delivery Facility Secure Access Lane (RDF-SAL) along Route 27 and the Pentagon Secure Bypass (PSB) Lane which involves the rerouting of Route 110 through the Pentagon North Parking lot.

After 2½ weeks of work on the parapets, work on the Southern Pedestrian Bridge (Corridor 9) is ¾ complete.

More info on this project can be found at:

Pentagon Renovation & Construction Program Office "MEET THE RENOVATORS"

David Coffman, IPT Leader, Program Controls

David's team is responsible for ensuring that the continuity of established program controls works between all PENREN/C projects. He also makes sure that the PENREN/C Director is kept informed on overall project health. That entails more than just project status, it requires using metrics to analyze past trends and making projections for the future.

In his own words: "I enjoy learning new things all the time from the large variety of professions represented at PENREN/C."
